

# Helen Doron English Presents: The Christmas Quartets Emotions Card Game

## Season's Greetings!

May your Christmas be merry and your New Year filled with joy. The team at Helen Doron English is thrilled to introduce our special Christmas Quartets Card Game—a delightful family activity that promises fun during the festive season.

### How to Prepare and Play:

**What's Inside:** The game features 36 cards, divided into 9 quartets (sets of 4 cards). Each category is inspired by a certain emotion and the words associated with it.

#### Crafting the Cards:

- Print the cards on an A4 paperboard (hard paper) – one-sided printing.
- Cut out the cards along the indicated lines. Make sure to be precise so that the cards look neat. Cut both the character cards and the back-side cards.
- Carefully glue each coloured character card – the front – to the back of a card.

**Box It Up:** If you wish, you can also craft a game box to store the cards. Follow the box-making instructions provided.

**Let the Games Begin:** Now that everything is set, gather your family and dive into the game! Just follow the game instructions, and you're good to go.

Let's make this Christmas extra special with our Quartets Card Game. It's not just a game; it's a bonding experience that also reinforces the English language skills and values we instil in our courses.

Enjoy and Ho Ho Ho!

Christmas Card Game

QUARTETS Christmas Card Game

### How to Play:

**Objective:** The aim is to collect as many Quartets as possible. The player with the most complete sets emerges victorious!

**Getting Started:** Shuffle the cards well. Each player is dealt 5 cards, which they should hold without revealing. Place the remaining cards face-down in a pile at the centre of the table.

**Taking Turns:** The first player inquires if another player possesses a card from a specific category based on the cards they hold. For example, if you have a card from the "Happiness" category, you may ask another player if they have a card from the same category.

- If the answer is "No," the turn concludes for that player.
- If the answer is "Yes," the asking player attempts to guess which specific card from that category the other player holds (e.g., "Embrace"). The turn continues until a "No" response is received.

**Completing a Quartet:** Upon gathering all four cards of a category, place the completed Quartet set aside on the table.

**Replenishing Hands:** Players should maintain a hand of 5 cards at least by drawing additional cards from the central pile as needed.

Enjoy!
